Sven Slivar

Software Engineer | Game Developer

Zagreb, Croatia • svenslivar@gmail.com • linkedin.com/in/sven-slivar-213b91225 • github.com/Sven-Slivar

PROFILE

Software and Game Developer with an MSc in Game Studies and Game Engineering from the University of Klagenfurt and a BSc in Computer Science. Comfortable across the full stack with a preference for backend development and game development in Unity. Experienced in software evaluation, user studies and data analysis.

EDUCATION

Universität Klagenfurt Oct 2023 – Oct 2026

MSc, Game Studies and Game Engineering

- Thesis: interactive Unity prototype evaluated through a user study.

RIT Croatia 2019 – 2023

BSc, Computer Science, Web & Mobile Computing

PROJECTS

Parry Simulator: MSc Thesis Project Unity, C#

- Built an interactive boss fight prototype in Unity to investigate how parry mechanics, telegraphing and game feel shape player mastery.
- Ran a user study collecting gameplay logs and post-play surveys (MiniPXI-style Likert scales), then analysed the data to draw design conclusions.
- Managed the project end to end, from design and development to study execution and analysis.

PROFESSIONAL EXPERIENCE

Comsysto Reply GmbH Jun 2022 – Aug 2022

Junior Java Developer | Zagreb, Croatia

- Developed backend features with Java Spring and PostgreSQL.
- Integrated Amazon Simple Email Service (SES) for email delivery.

Revuto Jan 2022 – May 2022

Junior Developer | Zagreb, Croatia

- Developed mobile application features using Flutter.

Comsysto Reply GmbH Jun 2021 – Aug 2021

Junior Java Developer | Zagreb, Croatia

- Built a web application for onboarding new members, with a Java Spring backend.
- Used Amazon S3 for file storage.

VOLUNTEERING

Programming Workshop Teacher Oct 2022 – Dec 2022

Privatna Klasična Osnovna Škola and Privatna Klasična Gimnazija | Zagreb, Croatia

- Delivered Object Oriented Programming workshops to both elementary and high school students.
- Adapted explanations and exercises to each age group, communicating technical concepts clearly to beginners.
